2015 WATER SEASON

The Board and staff of the Riverside Irrigation District, Ltd. would like to express their appreciation for the cooperation and support of the shareholders and water users of the company in making this a successful irrigation season. The water will be turning off on October 15th.

ANNOUNCEMENTS

Riverside Irrigation has hired Adam Bahem as the replacement ditch rider for the upper end of the project and part time secretary Kelly Chamberlain in October 2014.

Additionally, there is now a **mail slot** for payments and correspondence by the front door of our office building.

Each year we have patrons who are upset when they find out that the District has a Right of Way for the operation and maintenance of the canal system through their property. Please, before you build anything next to one of our canals, ditches, drains, or laterals, contact us first so we can provide you with the right of way information to prevent potential problems.

NEED DIRT ?

The field crew will be cleaning the canal and will pile the spoils on our right of ways. If you would like some of the extra dirt, please contact Andy at 208-724-8457.
